

DELTA® INTRODUCES HYDROPOWER™ TECHNOLOGY
Another Smart Solution from Delta Faucet Company

TORONTO, ON (April 21, 2010) – Just in time for Earth Day, Delta Faucet Company has introduced HydroPower™ Technology – an exciting alternative for powering electronic faucets. By harnessing the energy from water flowing through the faucet, HydroPower continually powers the faucet and captures power to recharge its battery pack. From a water-efficient lavatory faucet, HydroPower recharges its lithium ion battery pack allowing it to last up to 10 years. HydroPower can help contribute towards a LEED® project and is ideal for busy, high traffic commercial applications, such as airports, shopping malls, healthcare facilities and office buildings.

HydroPower™ is packed with Smart Solutions

- HydroPower utilizes a lithium ion battery pack – similar to those used in battery powered cars – that recharges itself with every use.
- The battery pack contains an on/off switch for battery conservation during seasonal usage, making it an ideal option for school installations.
- The electronics pack identifies the flow-rate and pressure to ensure the maximum charging capability from the generator.

“HydroPower™ Technology is a responsible choice for any public facility” says Peter Ashton, Business Development Manager for Delta Commercial products in Canada. “Finding alternate power is increasing in popularity because it replaces standard utility power and in doing so reduces operating costs.”

Availability

HydroPower™ Technology is available on several popular Delta Commercial models.

- 590T1120-HP – Single Hole Surface Mount Electronic Faucet
- 591T1220-HP – Center Surface Mount Electronic Faucet
- 1501T3370-HP – Surface Mount Electronic Faucet
- 3001T3320A-HP Surface Mount Electronic Faucet

HydroPower Technology can also be easily retrofitted on all Delta surface mount electronic TECK & HDF lavatory faucets by simply switching out the battery pack and installing the HydroPower™ Conversion Kit (Model# 062015A).

HydroPower™ Key Features:

- Provides an alternative to powering electronic faucets
- Ships with a fully charged lithium ion battery
- Unit will recharge batteries even when being used by lower flow 1.5 gpm faucets
- Lithium battery can last up to 10 years
- Helps contribute toward LEED® certification
- On/off switch can be used to turn off power during seasonal shut downs
- Optional battery charger is available for faucets that are not used as frequently as others
- Battery pack displays the water flow-rate and pressure to check the charging capability from the generator
- 5-year limited warranty

Product Availability

Products featuring HydroPower are available now. For more information, visit deltacommercialfaucets.com.

About Delta

Delta Faucet Company's commercial products are a leading choice of North American plumbing and mechanical contractors, engineers and architects. Delta's commercial offerings combine relevant, innovative features and exclusive technology with uncompromising quality. Delivering design solutions to meet project requirements, Delta's commercial products offer a full array of sleek, contemporary, sophisticated options that are highly functional to suit every need. Delta's product-trained customer service department, exclusive SpecSelect® program that facilitates product selection and five-year limited warranty on most commercial installations make Delta a market-leading product line. A worldwide leader in faucets and related accessories, Delta has a product for almost every application. For more information on Delta's commercial products, visit www.deltacommercialfaucets.com or call toll-free at 1-800-345-DELTA(3358).

About Masco Canada Limited

Masco Canada Ltd. is the Canadian plumbing division of Masco Corporation and represents numerous brands including: Brizo, Delta, BrassCraft, Delta Commercial, Hansgrohe, Motiv, Alsos, Master Plumber, PlumbShop and Waltec. Masco Corporation is one of the world's largest manufacturers of brand-name consumer products for the home and family. Masco delivers exceptionally crafted, stylish products including, faucets, kitchen and bath cabinets, architectural coatings (paints and stains), bath and shower units, spas and hot tubs, showering and plumbing specialties, windows, electronic locksets and other hardware.
